Storytellers have a long history of making a profound impact upon the world--from Harriet Beecher Stowe's revolutionary novel, *Uncle Tom's Cabin*, to Upton Sinclair's revelatory narrative, *The Jungle*--and in that tradition of great storytelling, the story of Sam Doonby leaves a profound effect upon the lives of those who watch it. *Doonby* is a film that entertains, challenges, and inspires, leaving its audience with a deep conviction of the importance of life and the decisions that each must face.

Doonby has screened for influential leaders and organizations, including The UK Houses of Parliament, The Family Research Council, The Dove Foundation, The Trinity Broadcasting Network, Ann Coulter, Sean Hannity, Rush Limbaugh, Pat Robertson and many others. Richard Land, of The Southern Baptists Convention, calls *Doonby* "engrossing and a really good film," and Lord David Alton of Liverpool raves that *Doonby* is a "thought provoking and clever film which raises profoundly important questions. It takes its audience by surprise, challenges them, and leaves them thinking. Brilliant cinema."

Doonby and its all-star cast, including John Schneider, Robert Davi, Jenn Gotzon, Ernie Hudson, and Jennifer O'Neill, have been featured in major media outlets including Fox News, The Hollywood Reporter, The LA Times, World Magazine, and World Net Daily among others.

Synopsis: Sam Doonby, a mysterious, handsome drifter gets off a Greyhound bus in a small Texas town and finds work at Leroy's Country/Blues Bar where his great musical talents make him very popular, especially with Laura, the beautiful but spoiled daughter of successful doctor Cyrus Reaper. Sam always seems to be in the right place at the right time to avert disasters befalling the town and its people until suspicion and jealousy drive folks to ask who he is and where he comes from. Even Laura starts to question him and then he disappears as quickly as he came and things start to go terribly wrong. His rejection results in a series of shocks for the whole town, and especially for the town's doctor as Cyrus' past comes back to haunt him.
